THE 2016 RHETAUGH G. DUMAS PROGRESS IN DIVERSIFYING AWARD
The Academic Women’s Caucus – The University of Michigan

The Academic Women’s Caucus invites nominations for the Rhetaugh G. Dumas Progress in Diversifying Award to recognize outstanding institutional initiative in demonstrating notable progress by academic units in achieving concurrent ethnic/racial and gender diversity in the faculty.

Rhetaugh Dumas was an esteemed leader with vision, insight, and wise counsel who had a major impact in the advancement of nursing, health care, and academic programs at U-M. Vice Provost Dumas was only the second African-American to hold the position of a Dean at the University of Michigan when she was appointed in 1981, and the first African-American woman to named a Dean. She was reappointed Dean of Nursing in 1986 and 1991 to second and third terms. Prior to that appointment, she was the first woman and first nurse to serve as a deputy director of the National Institute of Mental Health. Dumas was Deputy Director, Alcohol, Drug Abuse, and Mental Health Administration (1979-1981) and before that Chief, Psychiatric Nursing Education Branch of the Division of Manpower and Training Programs (1972-1976). She was also a founding member, a Charter Fellow, and a former president of the American Academy of Nursing. Dumas served the University of Michigan for over 20 years with vision and a commitment to excellence.

The rationale for the Rhetaugh G. Dumas Award is that achievement of a diverse faculty requires an institutional commitment to change that transcends the impact of individual actors. The full professor rank represents the zenith of faculty career ranks. Having concurrent ethnic/racial and gender diversity in the faculty holding the rank of full and associate professors, tenured and non-tenured, provides an emblematic statement about the institutional commitment of that unit to implementing a climate of inclusion. Thus, we seek nominations of units that have demonstrated the vision, commitment and dedication to achieve a truly diverse faculty.
